RE: Gunpowder SPS to White Marsh SPS System  
Improvements – Contract 1  
Stormwater Management Variance  
Lower Gunpowder Falls/ Bird River Watershed  
**Project I.D. M200026**  
**Tracking Number: 05-24-4237**

Dear James Kiladis;

This office has reviewed the information submitted and finds that a stormwater management variance can be granted for this project under Section 33-4-113 (a) (2) of Title 4 of the Baltimore County Code. Section 33-4-113 (a) (2) allows a stormwater management variance to be granted if there are exceptional circumstances such that strict adherence to the provisions of the design standards would result in unreasonable hardship or practical difficulty and not fulfill the intent of the regulations.

This project is for constructing 48-inch diameter force main, 36-inch & 42-inch diameter interceptor, tunnel beneath Gunview Road & Silver Spring Road, four air release/vacuum relief valve on 48-inch diameter force main, one junction chamber where existing 36-inch and 42-inch diameter interceptor cross and pressure sewer to gravity transition structure near the intersection of Soth and Yvonne Avenue by cut and cover. The existing cover conditions will be re-established once the improvement systems are installed. Although the disturbed area is in excess of 5,000 square feet, there will be no increase in impervious area or runoff resulting from the project.

Please contact Abiy Geleta, P.E. at 410-887-3768 should you have any questions.

Very truly yours,

*/signed/*

Kritty Udhin, P.E., Manager  
Stormwater Management
