RE: Richlyn Manor Sanitary Sewer Interceptor
Rehabilitation
Stormwater Management Variance
Lower Gunpowder Falls & Bird River Watersheds
Project I.D. M230188
Tracking Number: 05-24-4128

Dear Mr. Craig Shannon,

This office has reviewed the information submitted and finds that a stormwater management variance can be granted for this project under Section 33-4-113 (a) (2) of Title 4 of the Baltimore County Code. Section 33-4-113 (a) (2) allows a stormwater management variance to be granted if there are exceptional circumstances such that strict adherence to the provisions of the design standards would result in unreasonable hardship or practical difficulty and not fulfill the intent of the regulations.

This project is for the installation of approximately 4,450 feet of 10” force main along Richlyn Drive and Forge Road. All disturbed areas will be re-established once the force mains installation is completed. Although the disturbed area is in excess of 5,000 square feet, there will be no increase in impervious area or runoff resulting from the project.

Please contact Charu Malhotra, PE at 410-887-3768 should you have any questions.

Very truly yours,

/signed/

Kritty Udhin, P.E., Manager
Stormwater Management
Department of Environmental Protection
