Baltimore County SCHEMATIC LANDSCAPE PLAN CHECKLIST*

Plan Separate from Development Plan

GENERAL:		PROPOSED IMPROVEMENT:	
	Applicant name and address		Contours with labels
	Sheet title, "Schematic Landscape Plan"		Utilities with labels
	Name and type of project labeled		Structures labeled with use and square footage
	PAI/DRC #		Fences delineated and labeled
	Zoning case # including zoning order, and		Site lighting
	any landscape issues		Paving and associated right-of-way
	Scale		Retaining walls with spot elevation at beginning and end
	Current Date		of wall to show top of wall and bottom of wall at these
	North arrow		locations (Based on scale: 20 scale - 20 ft, 30 scale – 30 ft,
	Vicinity map: 1"=500' or 1000' with north		etc. and including bands)
	arrow		Dumpster location with label
	All conditions, calculations, and	Ц	Ground-mounted HVAC location with label
	dimensions must be shown		Parking table showing number of parking spaces required
	Zoning lines with districts labeled		and provided (Based on Condition B.2.e)
	Legend with site symbols, abbreviations,	Ш	Number of parking spaces that correspond to the parking table
	line types, meanings, etc.		table
EXISTING INFORMATION: Contours with labels Utilities with labels		T.A	ANDSCAPE UNIT CALCULATIONS TABLE:
	Contours with labels		pecific plant species are not required or recommended at Schematic phase)
	Contours with labels Utilities with labels	(S _I	pecific plant species are not required or recommended at Schematic phase)
	Contours with labels Utilities with labels Retained Structures: labeled with use	(S _I	pecific plant species are not required or recommended at Schematic phase) e Appendix C
	Contours with labels Utilities with labels	(S _I	pecific plant species are not required or recommended at Schematic phase) e Appendix C Include a "Landscape Unit Calculations Table" listing each condition from the Landscape Manual and listing the minimum required planting units for each condition with linear feet used Table of Proposed Planting by plant type (major, minor or
	Contours with labels Utilities with labels Retained Structures: labeled with use and square footage Paving: all adjacent roads clearly labeled with paving and existing and future right-of way delineated, adjacent property information including	Sec	pecific plant species are not required or recommended at Schematic phase) e Appendix C Include a "Landscape Unit Calculations Table" listing each condition from the Landscape Manual and listing the minimum required planting units for each condition with linear feet used Table of Proposed Planting by plant type (major, minor or evergreen trees, shrubs, and perennials if applicable)
	Contours with labels Utilities with labels Retained Structures: labeled with use and square footage Paving: all adjacent roads clearly labeled with paving and existing and future right-of way delineated, adjacent property information including ownership, tax ID number, use(s), etc.	Sec	pecific plant species are not required or recommended at Schematic phase) e Appendix C Include a "Landscape Unit Calculations Table" listing each condition from the Landscape Manual and listing the minimum required planting units for each condition with linear feet used Table of Proposed Planting by plant type (major, minor or evergreen trees, shrubs, and perennials if applicable) Include information for existing trees to be taken for
	Contours with labels Utilities with labels Retained Structures: labeled with use and square footage Paving: all adjacent roads clearly labeled with paving and existing and future right-of way delineated, adjacent property information including ownership, tax ID number, use(s), etc. Overhead wires shown on plan and legend	Sec	pecific plant species are not required or recommended at Schematic phase) e Appendix C Include a "Landscape Unit Calculations Table" listing each condition from the Landscape Manual and listing the minimum required planting units for each condition with linear feet used Table of Proposed Planting by plant type (major, minor or evergreen trees, shrubs, and perennials if applicable)
	Contours with labels Utilities with labels Retained Structures: labeled with use and square footage Paving: all adjacent roads clearly labeled with paving and existing and future right-of way delineated, adjacent property information including ownership, tax ID number, use(s), etc. Overhead wires shown on plan and legend CLINEATE:	Sec	pecific plant species are not required or recommended at Schematic phase) e Appendix C Include a "Landscape Unit Calculations Table" listing each condition from the Landscape Manual and listing the minimum required planting units for each condition with linear feet used Table of Proposed Planting by plant type (major, minor or evergreen trees, shrubs, and perennials if applicable) Include information for existing trees to be taken for credit: species, size -DBH, and condition
	Contours with labels Utilities with labels Retained Structures: labeled with use and square footage Paving: all adjacent roads clearly labeled with paving and existing and future right-of way delineated, adjacent property information including ownership, tax ID number, use(s), etc. Overhead wires shown on plan and legend CLINEATE: SWM type, and all other County	Sec	pecific plant species are not required or recommended at Schematic phase) e Appendix C Include a "Landscape Unit Calculations Table" listing each condition from the Landscape Manual and listing the minimum required planting units for each condition with linear feet used Table of Proposed Planting by plant type (major, minor or evergreen trees, shrubs, and perennials if applicable) Include information for existing trees to be taken for credit: species, size -DBH, and condition ovide:
