CATEGORIES FOR EXEMPTION

Learn more about why kits may be exempt from testing. The following categories for exemption are defined by the Maryland Sexual Assault Evidence Kit Policy and Funding Committee:

- **Anonymous**—SAKs that are collected from a victim who does not wish to report the assault to law enforcement and engage with the criminal justice system. The victim may choose to engage with the criminal justice system at a later date. If and when the victim chooses to report the assault to law enforcement, the case is reclassified as reported and the SAK may be eligible for testing.
- **Subject Is Already in CODIS**
 - The suspect is already in CODIS as a convicted offender, the identity of the suspect is not disputed and there has been a final conviction with all appeals having been exhausted.
 - As outlined in COMAR §11-926(e)(4), the suspect's profile has been collected for entry as a convicted offender for a qualifying offense in CODIS and the suspect has pleaded guilty to the offense that led to the sexual assault evidence collection kit.
- **Unfounded Baseless**—A reported sexual assault that does not meet the elements of a crime, felony or misdemeanor. The following are examples in which a case may **NOT** be classified as false or baseless:
 - Identity of the suspect is known
 - Insufficient evidence to prove a sexual assault happened
 - State's Attorney's Office determined that a crime had been committed, but declined prosecution
 - Suspect admitted to sex with the victim but maintained that it was consensual
 - Suspicions that a report is false
 - Victim changes their account of events
- **Unfounded False**—A report can only be determined to be false if the evidence from the investigation establishes that the crime was not completed or attempted. To classify a report as false, there must be an investigation that factually proves that a criminal offense neither occurred nor was attempted.
- **Other Jurisdiction**—The offense occurred in another jurisdiction, therefore the SAK should be in the possession of another law enforcement agency. The evidence and kit will be transferred to the correct agency.
- **Victim Declined Consent**—A victim's decision, expressed to law enforcement during the course of the criminal investigation, that they no longer wished to participate in the investigation. Therefore, the investigating law enforcement agency suspended the investigation or closed the case.
