

## Baltimore County Wastewater Credit Application For Swimming Pools

In accordance with the County Executive Order, Metropolitan District Charges, Section III A.2.c. Sewer Service Charge Adjustments, water that is not returned to the sanitary sewer may be eligible for a credit, which reduces the Sewer Service Charge on the property tax bill. Please complete the following information. An on-site visit by the Department of Public Works may be made to verify the size and existence of the pool.

Unless a plumber-installed submeter is used to measure water to fill the pool, the pool volume will be used to calculate the maximum wastewater credit. The wastewater credit shall be no greater than the total pool capacity unless submetered, and the minimum credit is 1,000 cubic feet annually (1,000 cubic feet equals 7,480 gallons). No credits will be allowed for pools with a total volume less than 7,480 gallons.

**For new pools, you must submit a copy of the County permit with this application.** For existing pools, please provide an estimate of the installation date if original documentation is not available. This application must be submitted annually via email, mail, or fax to be considered for a credit and must be received no later than **March 1st**.
